PROFESSIONAL EXPERIENCE

UPS – SUPPLY CHAIN SOLUTIONS

Admin

Sept. 2016 – Present

- Led professional meetings with clients to provide updates on their products and developed shipping strategies and solutions.
- Applied in-depth knowledge of international transport rules and regulations to ensure compliance with Customs and foreign regulations.
- Managed operations, oversaw heavy equipment training, and ensured OSHA compliance.
- Actively participated in the safety committee, reporting and investigating injuries and accidents.
- Proficient in all aspects of work, from shipping to equipment operation and customer product programming.
- Collaborated with various carriers, including UPS Air Freight, UPS Ground, FedEx, DHL, and more.

UPS – UNITED PARCEL SERVICE

Front-line Supervisor

Sept. 2012 – 2016

- Challenged to lead and direct day-to-day operations involving loading and unloading of products in a time sensitive environment.
- Supervise a staff of up to 20 employees with training, scheduling and performance evaluation responsibilities.
- Oversee the distribution efforts involving timely and safe loading of products on airplanes and trucks. Demonstrate excellent working knowledge of weight distribution when loading the planes.

PROJECTS

E-commerce Website (New Developers Bootcamp Project)

- Designed and developed an e-commerce website using HTML, CSS, and JavaScript.
- Implemented user-friendly features, responsive design, and integrated a secure payment gateway.

Inventory Management System (UPS Supply Chain Solutions)

- Collaborated with the IT team to optimize the inventory management system.
- Developed scripts to automate inventory updates, improving efficiency.

Java Application (New Developers Bootcamp Project)

- Built a Java application that demonstrates a solid understanding of Java fundamentals.
- Utilized object-oriented programming principles to create a user-friendly interface.
